2012

SAFETY & THE LAW

Please note that you must be 18 or over in order to buy fireworks. It is illegal to sell fireworks to anyone under the age of 18 and we will require photographic evidence of identity and age if you are lucky enough to look too young. It is also illegal for anyone under the age of 18 to be in possession of fireworks in a public place. Fireworks may not be used after 23:00 or before 07:00 except on certain special days. These are Chinese New Year, Diwali and New Year's Eve, when fireworks may be used until 01:00 on the following day, and November 5th when they may be used until midnight.

Have fun with fireworks but please show consideration for those who may not like them:

- Warn close neighbours, particularly those who are elderly or nervous and those with young children or pets.
- Warn nearby livestock owners and keepers of animals.
- Don't use fireworks too near public roads and footpaths and other areas open to the public.

All the fireworks that we supply have been tested as safe for use by the general public and will be clearly marked with a label that says they conform to BS7114: Pt2: 1988. The label will also tell you whether the firework is a GARDEN FIREWORK or a DISPLAY FIREWORK.

Garden Fireworks must be viewed from a minimum distance of 5 metres and Display Fireworks must be viewed from a minimum distance of 25 metres. The label will also provide general instructions about how to use the firework safely and what effects to expect.

Always read the safety instructions on each firework together with any additional instructions included in the firework pack and/or provided by us before attempting to light them.

PROFESSIONALLY FIRED DISPLAYS

Why not leave all the work and worry to us!

Our experienced crews have been firing displays for over twenty-five years. We will be pleased to provide a quotation for the supply of a professionally fired display – outdoor, or indoor (using special close proximity pyrotechnic effects).

Prices start from £600 (local venues – off peak) and include pre-display site visit, risk assessment, delivery of materials and equipment to the site, setting up and firing the display, removal of equipment from the site and clearing up of any large debris.

The price also includes comprehensive insurance cover – plus all the advice and help you will need to ensure a successful event. A display brochure is available on request. We can also supply a range of event management services, e.g. staging, power, lighting, lasers, sound, security etc., through an associate company.

CONDITIONS

Where descriptions, calibres and running times have been quoted alongside items, these are for guidance only and should not be assumed to necessarily be accurate. Unless specifically instructed not to, where certain items or pack contents are not available for any reason, goods of similar value, quality and performance will be substituted.
